

Supporting Readers at Home K-3

A Presentation for Parents
Offered by Ivy Sandz, Literacy Access

- Do you wonder how to best support your child's reading at home?
- Would you like a deeper understanding of aspects of the reading process and how they apply to your child's reading?
- Are you looking for ways to help your child other than "sound it out?"
- Do you have concerns about your child's reading or attitude toward reading?

Supporting young readers can be a rewarding and complex process. This workshop will help you find your purpose (what are you trying to support?) and teach you powerful and effective ways to work with your K-3 readers at home. Bring your questions, and come have fun as we take a quick trip into the joys of reading!

Schools: For information on how to bring this presentation to your school's parent community, please contact Ivy Sandz at Literacy Access (510) 528-8773.
